### PICTURE FILM BURNS THEATER

Tuomeari Skating Rink Is Also Burned—Water Supply Was Bad.

Tuomeari, N. M., March 3.—An electric spark set a moving picture film on fire last night and before anything could be done the Crystal theater, a two-story frame building, and the skating rink, another large frame building, were burned to the ground.

The water pressure was light and the fire department was helpless. The loss is estimated at \$12,000.

ously, as a result. The entire train by a narrow margin escaped plunging down a 50-foot embankment.

The accident occurred near Milan, a station on the main line, 22 miles east of Spokane. The train was eastbound and carried 175 passengers.

As the limited was rounding a curve the engineer, Alonzo Carle, of Spokane, and several passengers, saw the great mass of boulders blocking the way. Carle threw on the emergency brake 25 feet before the rocks were reached, as a result the force of the crash was lessened considerably.

When the train struck, gas tanks in the cars exploded. Fire immediately burst out in five of the forward cars and they began to topple over the embankment.

Conductor R. S. Robertson saw the danger and the chance there was of saving the rest of the train. Calling for help from the uninjured men passengers

he ran forward and uncoupled the last three cars.

With the aid of the passengers these were shoved out of danger.

A hundred and twenty foot bridge near Pailade was reported destroyed last night, and another washout occurred near Carlin this morning. Trains for California are being detained at Ogden by way of Portland.
